Questions	Legal and General (LGIM)		
<p>Do you have an ESG policy that is integrated into the investment process?</p>	<p>Yes</p> <p>Our policies are implemented consistently at a firm-wide level. LGIM's purpose is to create a better future through responsible investing. Aligned to this purpose, ESG is a central underpinning to all of LGIM's activities and especially within strategic initiatives. LGIM has developed and publicly disclosed its policies for stewardship activities. Our policies are reviewed annually and updated where necessary to ensure they remain aligned with the various evolving regulations, best practice and client feedback.</p>	<p>Are Senior Management accountable for ESG or Climate Change risks?</p>	<p>Yes</p> <p>We have many people across the business contributing to our ESG insights and research. They sit across various teams with different levels of responsibility relating to ESG but all feed into our responsible investing capabilities. As at the end of June 2022, there are a total of 47 LGIM employees with roles dedicated to ESG, some of which are outlined in more detail below. • There are 20 people in our global Investment Stewardship team, led by Kurt Morriesen. The team is responsible for developing and carrying out LGIM's investment stewardship and responsible investment activities as well as the oversight, implementation and integration of ESG across the firm. • Nick Stansbury, Head of Climate Solutions, leads our energy transition approach and is one of our most prominent spokespeople on this topic. He leads our Climate Solutions team which has a total of four team members. • As Global Head of Responsible Investment Integration, Michael Marks' role spans all functions within LGIM from investment stewardship, distribution and investment teams to operational functions such as data and technology; embedding ESG across the firm in all areas and ensuring that focus is maintained on delivering the capabilities required by all stakeholders. • Amelia Tan has recently joined LGIM as the Head of Responsible Investing Strategy for Investments (January 2022). This role ensures that LGIM stays at the cutting edge of innovation within responsible investing and creates a coordinated approach across asset classes, which is embedded throughout our funds and portfolios. • Caroline Ramscar, Head of Sustainable Solutions, is responsible for engaging with clients on sustainability and the development of responsible investment solutions. This is a role which was created to develop LGIM's sustainable strategy. Two further colleagues are dedicated to supporting clients' journeys to adopt more responsible investing strategies. • LGIM's Real Assets team has a team of seven dedicated ESG experts working across the range of private credit and real estate strategies that we manage. As at the end of June 2022, we also have a further 62 colleagues across Investments whose roles have very substantial contribution to our responsible investing capabilities and whose objectives reflect this although their responsibilities are broader than solely ESG. Our Global Research and Engagement Groups (GREGs) bring together colleagues from across LGIM to identify the challenges and opportunities that will determine the resiliency of sectors and the companies within them. The output from the group strengthens and streamlines the firm's engagement activities across investments and stewardship, to enable us to collectively set goals and targets at a company level with one voice, whilst supporting and guiding our investment decisions across the capital structure. As at the end of June 2022, there are over 70 participants which includes members of our investment teams primarily along with representation from Investment Stewardship, who overlap on these groups.</p>
<p>Do you have a firm ESG rating?</p>	<p>Yes</p> <p>LGIM has an award-winning Investment Stewardship team, with a track record of over 20 years. External validation and oversight keep us on our toes and propels us forward to keep improving. We participate in industry-wide assessments of our engagement and stewardship processes and are proud to have been nominated by industry bodies like the ICGN, ICSA and UN PRI for our: • Engagement activities disclosure • Market-wide involvement in lobbying activities • Strong implementation of ESG and corporate governance matters into our stewardship activities.</p>	<p>Do you have a dedicated team that considers ESG and Climate Change related factors?</p>	<p>Yes</p> <p>There are a total of 37 LGIM employees with roles dedicated to ESG. In addition, we have a further 58 colleagues whose roles have very substantial contribution to our responsible investing capabilities and whose objectives reflect this although their responsibilities are broader than solely ESG.</p>
<p>Please provide your UNPRI survey scores</p>		<p>Do you rely on any third parties to provide ESG and Climate Change related analysis/research?</p>	<p>Bloomberg, CDP, Diligent, HSBC, InfluenceMap, ISS, IVIS, Maplecroft, Refinitiv, RepRisk, Sustainalytics We obtain a large ESG raw data set from a wide range of data and analysis providers which can be used for voting, engagement, research, index/portfolio construction and management. We typically licence raw data from</p>

# Fund Manager Business Response

Questions	Legal and General (LGIM)		
			such providers, as opposed to off-the-shelf ESG scores/rating, as we believe our knowledge and expertise of investing and engaging with companies are best placed to identify material and relevant ESG factors. This quantitative data is supplemented by qualitative research from academic and NGO research as well as sell-side broker reports.
Do you have a Climate Change policy that is integrated into the investment process?	<p>Yes</p> <p>We have developed proprietary ESG tools, used across different asset classes and investment strategies, which incorporate climate change metrics such as carbon emissions, fossil fuel exposure or 'green' revenues. These tools are used to support fund managers, develop new investment solutions, assist the investment stewardship team in its engagements with companies, and help clients understand more about the climate risks and opportunities in their portfolios. LGIM has developed a bespoke climate solutions framework, Destination@Risk, which allows us to quantify the implications of different climate change scenarios across the global economy, key sectors, and individual securities, including a forward-looking assessment of 'temperature alignment'. The outputs of the framework are used to inform our climate-related engagements, to support our investment process, and to develop climate reporting for clients.</p>	Do you create your own ESG or Climate Change related scores	<p>Yes</p> <p>We have developed a rules-based methodology by which to score companies against ESG metrics; this generates the LGIM ESG Score. The LGIM ESG Score aligns with how we engage with, and vote on, the companies in which we invest. To facilitate this process, we publish the scores and explain the metrics on which they are based. In addition, the ESG score is used by our index teams in the creation of ESG aligned index-products. We have identified 30 ESG indicators based on our expertise and experience in corporate reporting, corporate disclosures and transparency. We developed the scores with the aim of improving market standards globally, while monitoring ESG developments across our entire investment universe. The scores help drive our engagement process and are aligned with LGIM's voting policy and principles – we are more likely to vote against companies with poor scores at their annual general meetings (AGMs).</p>
Does your company have a policy on equality and diversity in the workplace?	<p>Yes</p> <p>LGIM is an award winning company, we are committed to delivering the right products and solutions to our clients and we believe the key to our success is our people. Steered by the Executive team, diversity and inclusion is embedded in our culture from the way we recruit, develop and connect with employees, to how we steward responsible investing through ESG. To show our commitment to making diversity and inclusion part of everything we do, the role of Head of Inclusion &amp; Culture was created in 2018. Colette Comerford was appointed to the role with responsibility for driving the evolution and continuous improvement of LGIM's culture, diversity and inclusion objectives, working closely with the executive team, our Senior HR team, LEGIT (Legal &amp; General Inclusion team) and L&amp;G's Group Diversity and Inclusion team.</p>	Do you provide any reporting publicly or to clients with regard to ESG and Climate Change related issues? How often?	<p>Yes</p> <p>Quarterly</p>
Do ESG related factors get considered with respect to performance management of investment companies and funds?	<p>Yes</p> <p>ESG factors are embedded into our evaluation of investment opportunities across many investment strategies to identify unrewarded risk, and protect and enhance the long-term value of all our clients' investments. Our investment framework is designed with several objectives in mind: • Encouraging companies to improve their behaviour, and the quality of their ESG disclosures, we can raise the standards of entire markets, and help generate sustainable, long-term returns for our clients • Assessing a company's ESG risks: we see unmanaged ESG factors, meanwhile, as posing potential risks and opportunities, which can have a material impact on the performance of investments • Identifying the winners of the future, the companies to which investors will allocate ever-larger amounts of capital.</p>	Are you signatories of the FRC UK Stewardship Code or equivalent?	<p>Yes</p> <p>LGIM has been a signatory to the UK Stewardship Code every year since its inception and we provide copies of our responses on our website.</p>

# Fund Manager Business Response

Questions	M&G Investments		
Do you have an ESG policy that is integrated into the investment process?	<p>Yes</p> <p>Our policy document sets out the Environmental, Social and Governance (ESG) investment policy relating to M&amp;G Group Limited ('MGG') investment and asset management businesses and activities ('M&amp;G Investments') excluding M&amp;G Investments Southern Africa (MGSA) and ResponsAbility. The assets in scope are all the assets directly managed by M&amp;G Investments on behalf of its clients, including the internal asset owner, whether or not they are held within funds with a specific ESG objective or promoting ESG characteristics.</p> <p>Please see our ESG integration and sustainable investing policy published in our website:  <a href="https://www.mandg.com/~media/Files/M/MandG-Plc/documents/mandg-investments/2024/m-and-g-investments-esg-integration-and-sustainable-investing-policy.pdf">https://www.mandg.com/~media/Files/M/MandG-Plc/documents/mandg-investments/2024/m-and-g-investments-esg-integration-and-sustainable-investing-policy.pdf</a></p>	Are Senior Management accountable for ESG or Climate Change risks?	<p>Yes</p> <p>The Board is ultimately responsible for setting M&amp;G's sustainability strategy and ESG values and principles. The Board delegates specific duties to sub-committees as follows: Reporting in the Annual Report and Accounts and any other material public documents in respect of climate change and ESG matters (for compliance with relevant regulations, legislation and standards) is included in the Audit Committee's terms of reference, available on our website. Assessment of ESG risk within the Group Risk Management Framework, including climate-related stress and scenario testing, the reporting of climate-related risk disclosures and provision of advice to the Board in setting M&amp;G's ESG strategy, is included in the Risk Committee's terms of reference, available on our website. Responsibility for sustainability at an individual level is assigned to our Chief Financial Officer, who has previous experience in climate stress testing and sustainable impact investing.</p>
Do you have a firm ESG rating?	MSCI ESG Score: AA	Do you have a dedicated team that considers ESG and Climate Change related factors?	<p>Yes</p> <p>The central ESG team at M&amp;G Investments is the Stewardship &amp; Sustainability (S&amp;S) team, which currently comprises of about 32 M&amp;G employees. The team was restructured under new leadership in last year. Additionally, there are numerous ESG specialists across the floor, embedded in investment teams. At M&amp;G we believe that ESG integration should occur in all parts of our investment business and to reflect this everyone has an objective to this end. We look to continuously monitor S&amp;S team resourcing levels to ensure the best quality of service is provided to clients. M&amp;G will also ensure and make it the responsibility of all team members to keep up to date with the rapidly changing landscape of ESG to leverage resources effectively. The S&amp;S team works collaboratively, both directly and via the analysts, to equip managers to make better-informed decisions, knowing the full spectrum of ESG risks that could impact their portfolios, as well as where these risks may be concentrated within certain issuers or holdings. By working in conjunction with the credit and equity analysts on ESG, the S&amp;S team is able to ensure that ESG risks and opportunities are considered throughout the full investment process, as well as in the monitoring of companies.</p>
Please provide your UNPRI survey scores	Please see our summary scorecard for 2023 upon request. The PRI has made reporting in 2024 voluntary for most investor signatories that reported publicly in 2023. After careful consideration, M&G Investments has decided to use this year to streamline our approach and focus on evolving our sustainability programs. Our 2023 scores are publicly available and have been deemed valid by the PRI. We will resume reporting this year.	Do you rely on any third parties to provide ESG and Climate Change related analysis/research?	<p>Yes</p> <p>We have portal and data access with a number of ESG vendors, including MSCI, Bloomberg, ISS, Sustainalytics and other specialist advisers. In addition, we obtain ESG data through authorised aggregators or channels, including Bloomberg, Factset, Refinitiv Eikon, Dasseti and Aladdin.</p> <p>We use data sourced from third-party data providers (eg MSCI and Bloomberg) to calculate the emissions metrics. While we perform high-level checks on the data received, we are reliant on the accuracy of the source data received from these third-party vendors.</p>
Do you have a Climate Change policy that is integrated into the investment process?	<p>Yes</p> <p>At M&amp;G, we manage climate impacts from three key perspectives: as an asset owner with long-term liabilities, an asset manager looking after both internal and external capital, and as an international business with operations across many locations. We recognise that climate change is a collective challenge and that progress is heavily dependent on ambitious public policy. We are committed to engaging with policymakers to support the development of effective policy,</p>	Do you create your own ESG or Climate Change related scores	<p>Yes</p> <p>M&amp;G Investments Corporate ESG Scorecard acknowledges the qualitative nature of many ESG considerations, and allows analysts to express their views in primarily qualitative terms, within the context of a structured and disciplined framework. The scorecard enables consideration of key ESG factors and comparison of management and performance by companies. The scorecard has been designed so as to provide a ranking of companies either on a total ESG basis or on any of the constituent parts of environmental, social or governance. The output is therefore separate scores for E, S, G, Climate and an overall ESG score.</p>

# Fund Manager Business Response

Questions	M&G Investments		
	<p>and at the same time we will continue to improve our assessment of climate- related risks and opportunities using our evolving frameworks and tools.</p> <p>As a large investor in both public and private assets, our strategy is focused on positive real-world change, using the levers we have to support the climate transition and help our clients manage the risks and opportunities brought by climate change. This means taking action to align our investments so that they contribute to and thrive in a low-carbon world. From an investment perspective, we can influence decarbonisation through three key channels: – Investment strategies: Making changes to our investment portfolios – Stewardship: Engaging issuers to implement ambitious transition plans – Advocacy: Engaging with industry and policy makers. Alongside portfolio decarbonisation, we can play an important role in helping to finance and enable climate solutions, to accelerate the transition. At M&amp;G, we consider this a structural growth opportunity we are well placed to support, both in developed and emerging markets. Our stewardship approach is based on our belief that divestment does not have a direct impact on real-world emissions reductions. Our priority as an active, long-term investor is to encourage change through engagement and voting.</p>		
<p>Does your company have a policy on equality and diversity in the workplace?</p>	<p>Yes</p> <p>Diversity &amp; Inclusion is a strategic objective. At all levels of the business we recognise the benefits of having a diverse team that feels valued and listened to. It helps us think and act differently, adopt new ideas and better relate to the needs of our customers. An inclusive environment makes us more accessible and ensures we attract, engage, promote and retain the best talent. We embrace our differences and remove barriers to inclusivity so everyone can be high performing and deliver results.</p>	<p>Do you provide any reporting publicly or to clients with regard to ESG and Climate Change related issues? How often?</p>	<p>Yes</p> <p>Please see our non-financial and sustainability information statement from page 56 onward in our 2024 Annual Report &amp; Accounts: M&amp;G plc Annual Report and Accounts 2024</p>
<p>Do ESG related factors get considered with respect to performance management of investment companies and funds?</p>	<p>Yes</p> <p>M&amp;G believes that ESG factors can have a material impact on long-term investment outcomes. Our goal is to achieve the best possible risk- adjusted returns for our clients, taking into account all factors that influence investment performance. Consequently, ESG issues are integrated into investment decisions wherever they have a meaningful impact on risk or return. We apply this approach to ESG analysis across all of the asset classes and sectors in which we invest. Research and investment teams have access to internal proprietary ESG thematic research, as well as relevant data from other sources. They evaluate the impact and materiality of these ESG themes within the context of the industries and companies that they cover, with assistance from the Stewardship &amp; Sustainability team. Together, these teams deliver actionable investment research that includes ESG issues, insights and recommendations to fund managers for use within the investment decision-making and portfolio construction processes.</p>	<p>Are you signatories of the FRC UK Stewardship Code or equivalent?</p>	<p>Yes</p> <p>We do publish our Annual Stewardship Report prepared under the FRC UK Stewardship Code 2020, which highlights key activities from the previous year across asset classes such as equities, fixed income, property and infrastructure. We also provide an overview of our stewardship approach, which is reviewed annually, and specifically outlines how we adhere to the code in appendix of this report. <a href="https://www.mandg.com/~media/Files/M/MandG-Plc/documents/mandg-investments/2024/mg-investments-annual-stewardship-report-2023.pdf">https://www.mandg.com/~media/Files/M/MandG-Plc/documents/mandg-investments/2024/mg-investments-annual-stewardship-report-2023.pdf</a></p>

# Fund Manager Business Response

Questions	Payden & Rygel		
Do you have an ESG policy that is integrated into the investment process?	<p>Yes</p> <p>In addition, Mobius is invested in the Payden Absolute Return Bond Fund which is designated Article 8 pursuant to SFDR, additional ESG policies are applied to this Fund: <a href="http://www.payden.com/SFDRPolicies.aspx">www.payden.com/SFDRPolicies.aspx</a></p>	Are Senior Management accountable for ESG or Climate Change risks?	Yes
Do you have a firm ESG rating?	N/A - we do not have an ESG rating.	Do you have a dedicated team that considers ESG and Climate Change related factors?	<p>Yes</p> <p>Payden has a four-person dedicated ESG team which is responsible for coordinating ESG efforts across Payden. This includes partnering with strategy teams to design custom ESG solutions for clients, developing firm-wide scalable tools and reporting as well as centralized issuer engagement.</p>
Please provide your UNPRI survey scores	<p>Policy, Governance and Strategy: 4 Stars</p> <p>Confidence Building Measures: 4 Stars</p> <p>Direct – Fixed Income - SSA: 3 Stars</p> <p>Direct – Fixed Income - Corporate: 3 Stars</p> <p>Direct – Fixed Income - Securitized: 3 Stars</p>	Do you rely on any third parties to provide ESG and Climate Change related analysis/research?	<p>Yes</p> <p>We use both third party and in-house resources to collect and integrate ESG, climate data and metrics. The following is a sample list of data providers:</p> <p>MSCI ESG Ratings: Environmental, social and governance indicators for sovereign and corporate issuers.</p> <p>MSCI Net Zero Solutions: Temperature alignment, carbon emissions target, climate scenarios (transition and physical) and other climate related industry and security level indicators.</p> <p>MSCI Screening: Business &amp; product involvement screens, global sanctions, controversies and along climate risk indicators.</p> <p>MSCI EU Sustainable Finance: EU Taxonomy alignment and adverse impact metrics for SFDR regulation.</p> <p>ICE (previously risQ Analytics and Level 11): Physical risk and Value at Risk (VaR) indicators for local government and public enterprise issuers; Physical risk and Value at Risk (VaR) indicators for securitized structures and issuers.</p>
Do you have a Climate Change policy that is integrated into the investment process?	<p>No</p> <p>We do not currently have a written policy regarding climate change. Payden publishes an annual TCFD report that describes its approach to climate risk management, available on the Payden website: <a href="http://www.payden.com/documents/Payden_TCFD_General-Disclosure.pdf">chrome-www.payden.com/documents/Payden_TCFD_General-Disclosure.pdf</a>. Climate and environmental metrics are included in our ESG Sector and Portfolio Frameworks to aid integration of ESG into investment processes and complement portfolio positioning where appropriate. The frameworks are driven by third party data and informed by Payden's ESG signatory memberships. The frameworks include factors such as physical and transition risk, scope 1&amp;2/3 emissions per millions of USD sales, GHG per GDP, SBTI-approved targets, and fossil fuel exposure.</p>	Do you create your own ESG or Climate Change related scores	<p>No</p> <p>Not applicable.</p>

# Fund Manager Business Response

Questions	Payden & Rygel		
	<p>Specifically, for the Payden Absolute Return Bond Fund, the Fund promotes climate change mitigation. Climate change mitigation is measured via greenhouse gas intensity data for corporate and sovereign holdings and the climate score for the US-securitized issues in the Fund. The Fund portfolio's greenhouse gas intensity is managed below the relevant comparable ESG universe which is representative of the broad portfolio allocation for the Fund. In addition, for the securitized portion of the fund, U.S. Commercial Mortgage-Backed Securities (CMBS) and Residential Mortgage-Backed Securities (RMBS) are considered to promote Climate Change Mitigation if they have a below-average "Climate Score". The fund also includes revenue-based restrictions on oil and gas and thermal coal in accordance with its SFDR ESG Investment Exclusions.</p> <p>Further information is available in the Annex II for the fund, available on our website:</p> <p><a href="https://www.payden.com/offshore/5493000ZUNPSNNP34018.pdf">https://www.payden.com/offshore/5493000ZUNPSNNP34018.pdf</a>.</p>		
<p>Does your company have a policy on equality and diversity in the workplace?</p>	<p>Yes</p>	<p>Do you provide any reporting publicly or to clients with regard to ESG and Climate Change related issues? How often?</p>	<p>Yes</p> <p>We report publicly on our ESG practices in line with our membership to organisations such as the PRI and UK Stewardship Code.</p> <p>In addition, there is ESG reporting available on the Payden website in line with regulatory requirements:</p> <p>Annual TCFD report: <a href="http://www.payden.com/documents/Payden_TCFD_General-Disclosure.pdf">www.payden.com/documents/Payden_TCFD_General-Disclosure.pdf</a></p> <p>Annual ESG Engagement Report: <a href="http://www.payden.com/weekly/EngagementReport_2023.pdf">www.payden.com/weekly/EngagementReport_2023.pdf</a></p> <p>Annex I: <a href="http://www.payden.com/SFDRPolicies/Annex%201%20Payden%20Absolute%20Return%20Fund%2030%20June%202023.pdf">www.payden.com/SFDRPolicies/Annex%201%20Payden%20Absolute%20Return%20Fund%2030%20June%202023.pdf</a></p> <p>Annex IV, contained in our financial statement: <a href="http://www.payden.com/offshore/FS.pdf">/www.payden.com/offshore/FS.pdf</a></p> <p>UK Stewardship Code: <a href="https://www.payden.com/documents/UK_Stewardship_Code.pdf">https://www.payden.com/documents/UK_Stewardship_Code.pdf</a></p>

# Fund Manager Business Response

Questions	Payden & Rygel		
			<p>We use MSCI as our primary source for carbon emissions data. For our SFDR Article 8 funds, the corporate investments GHG intensity is measured as the weighted average carbon emissions Green House Gas (GHG) emissions - scope 1, 2 and 3 normalized by sales in euros). Sovereign investments are measured as the greenhouse gas relative to gross domestic product (GHG/GDP). We also monitor securitized investments (CMBS &amp; MBS) and their climate score. The Funds latest ESG report is available here: <a href="http://www.payden.com/SFDRESG/Absolute_Return.pdf">www.payden.com/SFDRESG/Absolute_Return.pdf</a></p>
<p>Do ESG related factors get considered with respect to performance management of investment companies and funds?</p>	<p>Yes</p> <p>ESG factors are analysed in accordance with the Environmental and/or social characteristics promoted in the fund and ESG considerations are implemented through ESG screening and portfolio construction decisions.</p> <p>The fund promotes:</p> <ol style="list-style-type: none"> <li>1. The goal of climate change mitigation is targeted through the application of carbon metrics and climate scores. Climate Change Mitigation is measured via greenhouse gas intensity data and the climate score of the underlying securities of the Fund. The Fund portfolio's greenhouse gas intensity is managed below the relevant comparable ESG Universe which is representative of the broad portfolio allocation for the Fund.</li> <li>2. Restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy.</li> <li>3. Exclusion of companies that fail to demonstrate good governance through the application of the Payden ESG Good Governance Policy.</li> </ol>	<p>Are you signatories of the FRC UK Stewardship Code or equivalent?</p>	<p>Yes</p> <p><a href="#">UK_Stewardship_Code.pdf</a></p>

Do you undertake Engagements for this fund?	No	Please provide details on why you do not undertake engagements for this fund.	Gilt Fund
Do you engage in voting for this fund?	No	Please provide details on why you do not engage in voting for this fund.	Gilt fund
Do you monitor the carbon emission levels or similar of the underlying companies in the fund?	Yes - the fund produces approximately 132.4 Weighted Average Carbon Emissions Scope 1 + Scope 2 (Tonnes CO2e per 1 million USD Invested) as of 31 March 2025	What was the actual turnover rate over the last 12 months?	

Activity	M&G Total Return Credit Investment Fund		
Do you undertake Engagements for this fund?	Yes		
How many engagements have you had with companies in the past 12 months?	10	How many engagements were made regarding environmental topics?	7
How many engagements were made regarding social topics?	2	How many engagements were made regarding governance topics?	1
Which form of engagement is most representative of the approach taken for this fund over the last 12 months: <ul style="list-style-type: none"> <li>• Sending standardised letters to companies</li> <li>• Sending bespoke letters to companies</li> <li>• Standard period engagement with companies</li> <li>• Active private engagement on specific issues</li> <li>• Active public engagement on specific issues</li> </ul>	Sending bespoke letters to companies, Active public engagement on specific issues, Standard period engagement with companies	How many engagements were made regarding other issues?	0
Please discuss some of the key engagements and outcomes from the last 12 months.	<p>Engagement with: AIB GROUP PLC</p> <p>Objective: We met with Irish Bank AIB to discuss the process it went through to have its near-term decarbonisation targets SBTi approved (as one of the few banks to have done so). The idea was to apply the lessons learned by AIB to other financial holdings that are finding validation difficult. As part of this meeting, we encouraged the bank to also have its net zero targets approved by SBTi, as well as regularly reporting on the outcomes of its scope 3 engagement programme, particularly as relates to its loan book.</p> <p>Result: AIB provided a good overview of the steps it had taken, the most important of which was initially getting internal stakeholders on board to allow for a smooth process, and working closely with SBTi on areas of uncertainty or concern. The bank confirmed that its intention was to get its net zero target approved, and was positive on the idea of reporting on its scope 3 engagement. This, it said, could eventually look at other ways of encouraging loan customers to decarbonise - in terms of incentives - while regulation was also helping to drive this, particularly CSRD. We had several other requests to put to the bank, particularly in terms of</p>

	<p>disclosure, but overran. We agreed to a follow-on meeting later in the year.</p> <p>Action taken: We met with the bank's chief strategy and sustainability officer, as well as a member of the investor relations team.</p> <p>Engagement with: DXC TECHNOLOGY CO</p> <p>Objective: To encourage DXC to increase board level gender diversity to 33% in line with our voting policy</p> <p>Result: We await to hear back from the company and will update in due course</p> <p>Action taken: M&amp;G sent an letter to the company to make our expectations known</p>		
Do you engage in voting for this fund?	No	Please provide details on why you do not engage in voting for this fund.	Not applicable as fixed income product
Do you monitor the carbon emission levels or similar of the underlying companies in the fund?	<p>Yes, we do monitor carbon emissions levels of underlying companies in our fund. Emissions metrics across our portfolios have been calculated based on the Partnership for Carbon Accounting Financials (PCAF) principles.</p> <p>Metric Description:</p> <ul style="list-style-type: none"> <li>* Financed carbon emissions (FCE) Scope 1 and 2 (ktCO<sub>2</sub>e)</li> <li>* Financed carbon emissions (FCE) Scope 3 (ktCO<sub>2</sub>e)</li> <li>* Carbon footprint Scope 1 and 2 (tCO<sub>2</sub>e/£m invested)</li> <li>* Carbon footprint Scope 3 (tCO<sub>2</sub>e/£m invested)</li> <li>* Weighted average carbon intensity (WACI) Scope 1 and 2 (tCO<sub>2</sub>e/£m sales)</li> <li>* Weighted average carbon intensity (WACI) Scope 3 (tCO<sub>2</sub>e/£m sales)</li> </ul> <p>In addition to backward-looking metrics mentioned above, which indicates the current emissions profile of an asset or portfolio, we also use forward-looking metrics to assess transition alignment and potential impacts on asset values over time by leveraging scenario analysis tools. The key forward-looking metrics that we monitor for public assets are:</p> <ul style="list-style-type: none"> <li>• Implied temperature rise (ITR): this metric allows a user to quickly gauge if a portfolio and issuer's GHG emissions' trajectory is aligned with the Paris Agreement through sub-industry and regional benchmark comparisons. It is a simplified tool allowing us to assess the transition profile of the companies we invest in and their progress toward driving</li> </ul>	What was the actual turnover rate over the last 12 months?

Please discuss some of the key engagements and outcomes from the last 12 months.	The UK has experienced a significant decline in the abundance of wildlife species. The most recent State of Nature report, published in 2023, found that there has been a 19% decline in the average abundance of wildlife species in the UK since the 1970s. The UK government has enacted Biodiversity Net Gain (BNG), which has been introduced to ensure development has a measurably positive impact ('net gain') on biodiversity, compared to what was there before development. In 2024, it published guidance for developers, land managers, and local planning authorities on how to		

Activity	Payden Absolute Return Bond Fund		
	<p>create on-site or off-site biodiversity gains. Kier is a UK infrastructure services and construction company whose main business operations include the development of projects across the education, healthcare, and transportation sectors. We engaged to better understand how Kier is incorporating this guidance as part of its broader environmental strategy and complying with the regulation. The engagement aligned with Payden's targeted engagement framework and PAI (7) activities negatively affecting biodiversity sensitive areas.</p> <p>Members of Payden's ESG and Research teams led the engagement with the company's Director of Corporate Development. Kier shared that it is in compliance with the UK's Biodiversity Net Gain, and at the end of 2025, it is expecting to have its nationally significant infrastructure projects deliver a 10% improvement in habitats on a 'like-for-like' or 'like-for-better' standard (including woodland and forest habitats). Kier also highlighted that it is an adopter of the Taskforce for Nature-related Financial Disclosures (TNFD) and is expected to disclose its first report at the end of 2025. In addition, the company has become ISO (International Organisation for Standardisation) certified through environmental systems management, supporting the company's assessment of local habitats, protected and invasive species, and resource conservation (e.g. soils).</p> <p>Kier explained that biodiversity considerations begin in the design stage and are embedded into project development thereafter. This is led by members of its in-house design team, comprised of ecologists and environmental experts. As an example of a project integrating biodiversity protections, the company shared that it supported the development of the UK's largest sustainable drainage project, creating nature-led drainage features to prevent local flooding and reduce pressure on local sewage treatment works, while also creating green spaces for the local community. The engagement had a positive outcome, and the company shared promising progress on its initiatives focused on protecting biodiversity loss. We will continue to monitor the company's upcoming public disclosures on the matter and may engage in the future.</p> <p>Sagax AB: Climate Change Mitigation</p> <p>According to the United National Environment Programme energy use in buildings accounts for about 26% of global GHG emissions annually, in addition, construction and renovations are responsible for a further 10% of emissions. We engaged with Sagax, a commercial property company with a portfolio of over 4 million square metres across Europe to better understand its initiatives surrounding its energy consumption. Sagax acquires and manages properties and real estate companies, focusing on warehouses/industrial properties and is held broadly across Payden client portfolios.</p> <p>Members of Payden's ESG and Research teams led the engagement with representatives from the company's</p>

	<p>Investor Relations team. Sagax reported that it has set a goal to reduce energy consumption throughout its property portfolio by 2% per year until 2030. To support this effort, the company is working to install solar power and geothermal heating facilities, upgrade heating and ventilation control systems, and provide extra insulation across its portfolio to increase energy efficiency. The representatives from Sagax also shared that it has implemented green leases, which incorporate sustainability factors that tenants may need to comply with, such as collecting and disclosing energy consumption data.</p> <p>In addition, Sagax highlighted that it is installing solar panels across its property portfolio and has set a target to increase renewable energy capacity to 15,000 MWh by its 2025 year end. At the time of the engagement, the company had reached over 10,000 MWh of renewable energy generation through solar panels and remains on track for its 2025 goal. The company shared that it is expecting to release its updated sustainability report later this year, and we may engage in the future.</p>		
Do you engage in voting for this fund?	No	Please provide details on why you do not engage in voting for this fund.	Not applicable for this fund as it invests primarily in fixed income securities where shareholder voting does not arise.
Do you monitor the carbon emission levels or similar of the underlying companies in the fund?	Yes, please see upon requested ESG reporting for the Payden Absolute Return Bond Fund within section 1.2.1. SFDR reporting, including Annex I, II & IV are available annually in line with regulatory requirements on the Payden website.	What was the actual turnover rate over the last 12 months?	187

## Important Information

Mobius Life Limited (Mobius Life) has prepared this report for professional advisers and institutional investors only. The purpose of this report is to provide information on Mobius Life's own products and services and nothing in this presentation, or any supporting material, should be regarded as a personal recommendation. This report is not intended for onward transmission.

**The value of investments, and the income from them, may go down as well as up and investors may not get back the amount originally invested.** Where an investment is denominated in a currency other than sterling, changes in exchange rates between currencies may cause investment values or income to rise or fall. Past performance should not be seen as a reliable indicator of future results. Any past performance quoted is based on dealing valuations.

Within a fund, the asset allocations and choice of asset managers are at the discretion of Mobius Life and may change without notification to the investor.

Where a fund is invested with another Life Company by means of a reinsurance arrangement, Mobius Life monitors the way the reinsurer manages its business, but does not guarantee the solvency of the reinsurer, so the risk of default by the reinsurer is borne by policyholders who invest in the relevant fund(s).

A Liability Driven Investment (LDI) is a specialist fund that uses sophisticated techniques to meet its objective. An LDI fund may invest in a range of assets such as derivatives, swaps and bonds which individually may have a high degree of risk, be difficult to sell in stressed markets and/or be unregulated by the Financial Conduct Authority. Leverage is used as part of the management of an LDI fund, this can increase the overall volatility of the fund and any events that adversely affect the value of an investment would be magnified to the extent that leverage is employed.

All information is sourced to Mobius Life unless otherwise stated.

Mobius Life Limited is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority. Mobius Life Administration Services is not authorised or regulated.

Mobius Life Limited (Registered No. 3104978) and Mobius Life Administration Services (Registered No. 5754821) are registered in England and Wales at: 2nd Floor, 2 Copthall Avenue, London EC2R 7DA.
